AB/CD/CD is a directors duo born in the year of grace 2009. After many years watching MTV, graphic design study and a born dead musician career, they've turned body and soul into the video caprice. Since then they've had a chance to work with musicians that have really inspired them: Panda Bear, Breakbot, Uffie, Kavinsky, Franz Ferdinand, Sparks, Factory Floor, Royal Blood, Kazabian, PC music... And they are constantly collaborating with worldwide agencies for brands such as American Express, YSL, Samsung, Axe, Diesel, Smirnoff... With few incursion into fashion industry shooting some of the most beautiful women of our time Kate Upton, Barbara Palvin, Cara Delevingne, Lily Donaldson, Rosie Tapner, Crista Cober, Hollie may Saker...the best is yet to come.
